

Intec Stain Inhibition Treatment:

- Developed for commercial use in hotels and airlines, this innovative resinous co-polymer formula, offers comprehensive stain protection.
- Intec forms an invisible shield around every fibre, keeping your carpets looking good and making them easier to clean and care for.
- It is extremely durable and gives lasting protection even in the most demanding conditions. Its soil release formula repels dirt, even oil based spills. Anti-static agents prevent attraction of dry soils to carpets ensuring quick and effective everyday cleaning.
- Intec's deep down protection ensures that when the stains disappear so do the smells.
- It dries in minutes and gives immediate protection with minimal disruption.
- It does not alter the fabric's colour, texture or flame retardancy, so even the most delicate yarns can be protected.
- Designed to be environmentally friendly, Intec is water based and does not contain harmful solvents.
- Intec also reduces abrasion and significantly increases the usable life of your carpets.
- Unlike other household products on the market Intec requires only one application no matter how often you clean your carpets and fabrics.
